

Bekarys Nurgassym

Data Analyst

Almaty, Kazakhstan | +7 (706) 615-95-77 | t.me/beka_rizz | wa.me/77066159577

PROFESSIONAL SUMMARY

Data Analyst with 2+ years of experience in analytics (healthcare, telecom) and a foundation in software engineering and information systems. Proficient in SQL, Python, and PySpark for data analysis, segmentation, and business reporting. Background in customer service and sales. Master's candidate in Software Engineering (KBTU).

WORK EXPERIENCE

Beeline (Kazakhstan) | Big Data Analytics Engineer

January 2026 - July 2026 | Almaty, Kazakhstan

- Analyzed 10M+ subscriber and usage records (roaming, internet traffic, geolocation data)
- Prepared target lists of 50K+ subscribers for marketing campaigns
- Worked with datasets spanning 6+ months of historical subscriber behavior
- Delivered 40+ ad-hoc analytical extracts for B2B, Marketing, and Product teams (~7 requests/month)
- Built 8 behavioral and geographic subscriber segments for campaign planning and usage-pattern analysis
- Conducted EDA on traffic and roaming across 14+ regions to identify peak usage and anomaly patterns
- Enhanced automation logic for migrated subscribers in DBSS (Digital BSS), improving validation rules and exception handling during legacy-to-platform migration

International Clinical Reproductive Medicine Center "Persona" | Data Analyst

May 2025 - December 2025 | Almaty, Kazakhstan

- Collected and analyzed patient, service, and physician workload data in SQL and Excel for management reporting
- Prepared 15+ regular clinic KPI reports: lead conversion, patient retention, revenue by department
- Analyzed marketing channel effectiveness and helped reduce cost per lead by ~20% through budget reallocation
- Automated weekly CRM exports, cutting report prep time from 4 hours to 40 minutes
- Built dashboards for room utilization and physician scheduling to optimize slots and reduce no-show rates

Dos Optics | Sales Specialist

June 2024 - March 2025 | Almaty, Kazakhstan

- Advised customers on glasses, lenses, and frames based on prescriptions and individual needs
- Met sales targets and managed client database and order tracking in CRM
- Processed production orders and tracked delivery timelines for finished products
- Trained 2 new employees on service standards and client-facing processes
- Participated in promotional campaigns, increasing average check by ~12% during peak periods

EDUCATION

Kazakh-British Technical University (KBTU), Almaty

M.S. Software Engineering (Expected 2027) | B.S. Information Systems (2025)

Sejong University, Seoul, South Korea

B.S. Computer Science and Engineering (2024) - Exchange Program

CERTIFICATIONS

Mastercard Data Quest (2026) | KaspiLab: Data Factory - Data Analyst (2025) | Software Testing Foundations, DataArt (2024)

TECHNICAL SKILLS

SQL, Python, PySpark, Pandas, NumPy, PostgreSQL, MySQL, Hadoop, Apache Airflow, Git, Docker, Jupyter, Excel, Scikit-learn, XGBoost, CatBoost, Matplotlib, Statistical analysis, EDA, Bash, REST API, Agile
